Open Court Publishing Co ,U.S., United States, 1998. Paperback. Condition: New. Language: English . Brand New Book. C.G. Jung's ideas continue to be of interest to many readers. Murray Stein, a longtime Jungian therapist and author, provides readers with an accessible introduction to the essential Jungian ideas. A major challenge to anyone who is trying to understand Jung's thought is the piecemeal way in which Jung communicated his ideas over his 60-year career - the result was 18 volumes of dense, often repetitious, prose. Stein provides a unified, comprehensive summary of Jung's vision of psychological and spiritual life. Written in a user-friendly style with lively anecdotes and helpful examples that illustrate some of Jung's abstract ideas. This text covers: the collective unconscious; human consciousness and the structure of the ego; synchronicity; the complexes; shadow; psychic energy; self; persona; individuation; and anima/animus.
