Temple Lodge Publishing, United Kingdom, 2014. Paperback. Condition: New. First. Language: English . Brand New Book. Two lectures in Bologna: on 31 March 2011 at the International Conference to Mark the Centenary of Rudolf Steiner s Lecture in Bologna, and on 8 April 1911 at the Fourth International Philosophy Congress A special conference took place in Bologna in Spring 2011, marking the hundredth anniversary of a unique lecture Rudolf Steiner delivered to a philosophically-trained audience in the same city. In his key exposition, Steiner had given a concise description of the spiritual-scientific theory of knowledge as well as a brief outline of the anthroposophical path of schooling. In his contribution to the 2011 congress, Sergei O. Prokofieff tackles two principal aspects. On the one hand, he describes how Steiner s Bologna lecture contained the essential foundations for a new science of the human ego . On the other hand, Prokofieff states that Rudolf Steiner was the first person to transform this same theory into a practical path of knowledge, following it to its very conclusion. Thus, the words of Rudolf Steiner s lecture were based entirely on personal experience. Together with a transcript of Rudolf Steiner s full Bologna lecture, Sergei O. Prokofieff s own lecture is reproduced here in an expanded version. In addition, this volume features Rudolf Steiner s important summaries of essential points , in which he develops and connects some of his key thoughts with further aspects of anthroposophy, especially in relation to their Christological foundations.
