## Furniture for Interior Design (Paperback)

By Sam Booth, Drew Plunkett

Laurence King Publishing, United Kingdom, 2014. Paperback. Condition: New. New. Language: English . Brand New Book. This comprehensive, practical guide explores how contemporary furniture is used within interior design to define a space, create division and enclosure, and alter or redefine circulation. Initial chapters illustrate the different contexts in which furniture is used, from the office and domestic interiors to retail and exhibition space; look at types of furniture, whether off-the-shelf or bespoke; and explore the new vogue for recycling and vintage. Later chapters examine both traditional materials such as wood and the more unusual such as stone and glass, while also explaining new methods of manufacture - such as Computer Numerical Controlled and Selected Laser Sintering. The final chapter looks at how a design is developed, the site surveyed, prototypes made and specifications and schedules drawn up. Furniture for Interior Design is a detailed, highly illustrated guide to specifying and placing existing manufactured furniture, but also shows the reader how to design, detail, and commission batch-produced furniture or one-off, site-specific pieces.
