DEVELOPMENTS IN POLYMER CHARACTERISATION 4

Springer. Paperback. Condition: New. 268 pages. Dimensions: 8.5in. x 5.5in. x 0.6in. This volume includes reviews on tackling polymer characterisation problems and on developing specific characterisation techniques. The first two chapters and the last chapter describe progress in providing characterisation information for polymers containing long-chain branching, for polymer blends, and for polymers having preferred orientation. The remaining chapters review progress in individual techniques, showing with examples the characterisation results which may be obtained. It is recognised that the degree of...
