By Gary H. Lyman

Oxford University Press Inc, United States, 2010. Paperback. Condition: New. New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. In recent years, rapid progress in the understanding and treatment of cancer has occurred, with many new and exciting treatment therapies now available to clinicians. Cancer mortality rates have begun to fall as greater and greater progress has been made in both the diagnosis and treatment of malignant diseases. Moreover, there has been considerable progress in our understanding of the basic biology and molecular genetics of cancer as well as the development and availability of an increasing array of novel therapies to complement the traditional modalities of surgery, radiation therapy and chemotherapy. These modalities greatly improved the ability of oncologists to reduce the adverse impact of cancer and its treatment; furthermore, they have enabled patients to complete potentially curative treatments in an optimal fashion. Evidence-based clinical practice guidelines are emerging from a variety of professional organizations to guide clinical decisions and optimize the management of patients with malignant diseases. However, with literally hundreds of medical journals attempting to disseminate the vast amount of new medical knowledge about cancer, it has become an enormous challenge for both trainees and...
